Introduction

Admission processes in top universities around the world evaluate a student's profile along with academics. The struggle is, within a limited time, how do you choose the optimal set of activities that showcase your candidature in the best possible way?

We are with you, every step of the way, to decode the rocket science and make the college admission processes easier.

Your aspirations, along with inputs from your preferred country, course and group of universities have been mapped by us to create a customised roadmap of activities that you should pursue to make your profile stand out!!

This customised timeline takes into account your current grade and the amount of time that you have left before the college admissions to make your profile the best possible - 'Beyond Academics.'

We will continue to help you with online counselling beyond the roadmap creation, in case you want to discuss certain aspects of your customised roadmap or about college counselling.

All the best! Just Promap your way to success!!

The Promap Assessment

Target Activities Requirement for YOUR Profile

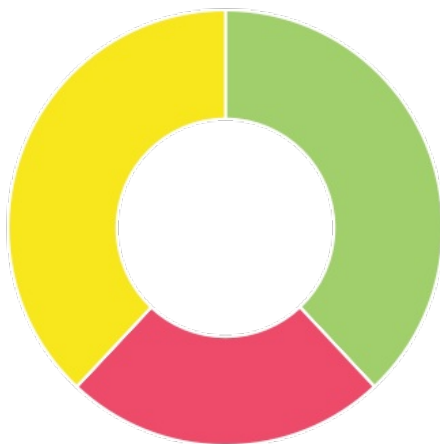

We often see that for students to gain admission in their dream college, achieving top scores is no longer the only requirement. It is essential to realise that universities look for more than just the scores!

Many universities are now looking for candidates who not only achieve high grades, but also involve themselves in various other academic or non-academic activities.

Our research with over 50,000 students has helped us understand how the different kinds of activities selected by students to ensure their profiles stand out give them better opportunities not just in securing admission at universities but also later on in the professional world, through the acquisition of lifelong skills.

Based on our thorough analysis of your current profile, we are recommending activities for you under various groups.

Our recommendation for your comprehensive profile building

38% Academic Honours

24% Career Focused

38% Extra Curricular

Activities

How to Achieve Your Targets

Now that you have understood the target groups of activities that should stand out in your application, let's explore the types of programs you should pursue to showcase specific skills.

Academic Honours

These are courses that allow a student to earn college credits while in high school. These are usually focused on certain subjects and scoring well in them shows the student's mastery over a subject. These courses also demonstrate the student's initiative and seriousness towards academics which is highly desirable by university admissions officers.

- Advanced Placement Courses
- International Olympiads
- Subject Specific Courses

Co-Curricular Experience

Each student has a few areas of interest outside of academics. These activities become important for college admissions when they can be conveyed as achievements and not just activities. Admissions officers are interested to understand the level of initiative that a student can take.

- School Magazine Articles
- Science Fairs
- Hackathons

Extra-Curricular Experience

There are many areas that a student gets exposed to while in school and with friends. Students may have an interest in areas like photography, theatre, etc. and those can be converted into an achievement by doing the right courses and gaining certifications.

- Music
- Dance
- Drama & Theatre

Career Focused Courses

These are courses which can help you hone skills that are useful to have in the working world for becoming more productive. Mastering these necessary skills will lead you to have a successful career.

- Design Courses
- Photoshop
- Microsoft Office

How to Achieve Your Targets

Summer Enrichment

World over, senior school students use the summertime to help prepare for college admissions. A popular option that helps a student's CV is doing a summer program at a university in the stream that is of interest. They can learn from professors of universities like Harvard, Yale, Oxford and many others to experience college life and/or earn credits.

- Yale Summer Program
- National Student Leadership Conference
- Aspire India Scholars Programme

Universal Programs

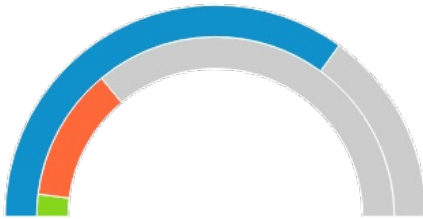

There are courses which help students hone key skills needed to be successful in this era of globalization. Across the world, high school students are going through courses on Critical Thinking, Effective Communication, Analytics, Modern Research Abilities, Collaborative Working etc. Certifications from some of these Universal programs are valued across the board.

- Public speaking
- Microsoft Office courses

Your Personalised Roadmap

Based on the Target Set of Activities recommended for you, here is your **Personalised Roadmap** that will enhance your profile and improve your admission chances. This will ensure that you spend time on not just any activities, but a target set of profile-building activities essential for your college dream!

Follow the Roadmap & increase your profile score
